Every operator has unique needs when it comes to menuing apps. Whether you're looking for something budget-friendly and basic, crafted and upscale — or something in between — consider the tiered variety of offerings from McCain.

The term Crafted is not intended to suggest that the products within this classification are hand crafted or made in small quantities. The term Crafted, instead, is intended to convey a higher level of general product quality and examples of this product quality includes lighter/thinner coating compared to current McCain Foodservice appetizer products, and/or reimagined cuts, textures, flavors and formats.
